

COHASSET

8212-PN

Once American homes began using fixed-position candlebearing fixtures, a little after the colonial era, the curved-arm chandelier was one of the few dominant forms. Cohasset's ringed ball anchor and subtle finial are norms of these "colonial" chandeliers, as are its candlecups and bobeches. It's the metal ring set off the ball, clasping its flowering of lithe and lively arms, that makes Cohasset unique. A ridged half-cylinder on the backplate takes the place of this ring in the wall sconce versions.
